Page Analysis

⚠ Title Tag

Title tag may truncate or read short. Adjust the copy so the main topic and value are clear in search results.

68 CHARS

Amee Technology Ltd | Custom Software, AI & Creative Media Solutions

Aim for 50-60 characters. Put the main topic near the front, keep the title unique, and move brand or secondary details after the core value.

[Learn how to optimize title tags.](#)

⚠ Meta Description

Meta description may truncate. Put the main value earlier so the snippet still works in search results.

249 CHARS

Amee Technology Ltd is a leading digital solutions company. We specialize in custom software development, AI & business automation, digital business solutions, UI/UX brand design, professional videography, social media management, and IT consulting.

Keep it concise, ideally 135 characters or less for this check. Lead with the page's main value so the snippet still works if search results truncate it.

[Learn how to write meta descriptions.](#)

⚠ ALT Attributes

Some images are missing alt text. Add descriptions for meaningful images to improve accessibility and image context.

1 MISSING

Missing alt text: 1 of 23 images.

Describe meaningful images in a short phrase or sentence. Skip "image of" unless it adds clarity, and leave decorative images empty with alt="".

[Learn how to add alt text.](#)

i Text/HTML Ratio

Text/HTML ratio was calculated. Use it as a rough content-to-code signal, not an SEO score.

16.3%

Text/HTML ratio: 16.3%; HTML: 45.5 KB.

⚠ Heading Structure

Heading issues were found. Fix missing, repeated, or skipped levels so the page is easier to scan.

MULTIPLE H1

Heading issues: 13; 8 H1, 2 H2, 28 H3.

Use one clear H1 for the page topic. Use H2s for main sections and H3s for subsections; avoid skipping levels like H2 to H4.

[Learn how to use heading tags.](#)

✓ URL	URL is clean and easy for users and search engines to understand.	21 CHARS
i Keyword Density	Keyword density was calculated. Use it to see which terms dominate the page, not to hit a target percentage.	1.2%
✗ Internal Links	Internal linking needs work. Add relevant links or fix broken targets so users and crawlers can discover more content.	29 LINKS

technology appears 13 times in 1083 visible words.

Internal links: 29; unique URLs: 3; broken: 3.

Use internal links to connect related pages and help users continue into relevant next topics. Review anchor text and broken targets in the Links report.

[Learn how to use internal links.](#)

Mobile Compliance

✓ Viewport Meta Tag	Meta viewport tag is implemented, so the page can scale properly on mobile devices.	SET
✓ Responsive Design	Responsive design signals were detected, so the page should adapt across screen sizes.	DETECTED

Viewport: width=device-width, initial-scale=1.0

Viewport: width=device-width, initial-scale=1.0; responsive rules detected: 7.

Technical Compliance

✗ HTTP Status	Server or client errors detected. Resolve them so search engines and users can access the page.	PENDING
! XML Sitemap	XML sitemap may be incomplete or hard to discover. Confirm it is linked, valid, and crawlable.	MISSING
! Robots.txt	Robots.txt was not found. Add one if this site needs crawl rules or sitemap discovery.	MISSING

No HTTP response received

A 200-level status means the page is accessible to visitors and search engines. Fix 404 errors, 500-range server errors, and keep redirects intentional and direct.

[Learn more about HTTP status codes.](#)

<https://ameetechnology.com.ng/sitemap.xml>; not detected in robots.txt

Make sure the sitemap is reachable, returns a 200 status, and lists canonical URLs you want search engines to discover.

[Learn how to create XML sitemaps.](#)

<https://ameetechnology.com.ng/robots.txt>; 404 Not Found.

Robots.txt should not block this page if you want it crawled. Normal Disallow rules for other paths are fine.

[Learn how to manage robots.txt.](#)

✓ Meta Robots	Meta robots directives allow indexing, so search engines can index your content as intended. index, follow	INDEXABLE
✓ HTTPS	Page resolves to HTTPS, so the URL uses a secure protocol. Final URL: https://ameetechnology.com.ng/	SECURE
✓ X-Robots-Tag	Server-level robots directives are clear, so this page is not blocked by response headers. X-Robots-Tag header: not present.	INDEXABLE
✓ Mixed Content	No mixed content was detected, so secure pages and assets load cleanly. Insecure resources: 0.	NONE
! HSTS	HSTS header is missing or weak. Strengthen it after confirming HTTPS works across the site. Strict-Transport-Security: none. HSTS tells browsers to use HTTPS for future visits. Treat it as advanced security hardening, and add it only after HTTPS works reliably across the site. Learn more about HTTPS and site security.	MISSING
✓ Page Size	Main page payload is within the target range. Main page payload: 0.01 MB.	0.01 MB
✗ Canonical	Canonical is missing or conflicting. Add one clear canonical URL to guide search engines. No canonical link tag was found. Use one canonical URL that points to the preferred version of the page. Avoid pointing canonicals to redirects, blocked URLs, or unrelated pages. Learn how to set canonical URLs.	MISSING
✓ Language Declaration	Language declaration is present, so browsers and assistive technologies can interpret the content correctly. <html lang="en">	EN
✓ Favicon	Favicon was found, making the site easier to recognize in tabs, bookmarks, and search surfaces. https://ameetechnology.com.ng/images/ameelogo.png	FOUND
✓ Schema.org Markup	Structured data is present and parseable, helping search engines understand the page entities. Organization	1 TYPE

! Hreflang

No hreflang tags were found. This is fine for single-language sites, but review if you target multiple regions.

0 TAGS

Alternate languages or regions detected: none.

Use hreflang only for alternate language or regional versions. Each alternate should reference the others and include a self-referencing tag.

[Learn how to set up hreflang.](#)

! Google Analytics

Analytics tracking was not detected. Add tracking if you need traffic and engagement data for this page.

MISSING

Detected IDs: none (GA4, UA, or GTM).

Use GA4 to connect page-level SEO checks with traffic and engagement data. Confirm the tag is installed once, fires correctly, and respects your tracking setup.

[Learn how to get started with GA4.](#)

✓ Noindex Tag

No noindex directive was found, so this check does not block the page from indexing.

INDEXABLE

Meta robots: index, follow; X-Robots-Tag: none.

Encoding	UTF-8
Doctype	HTML5
HTML Size	11 KB
HTTP Headers	None detected
